

MY WHOLE EARTH ACADEMY

2025/2026 School Year – Prep School Programs

Parent Participation Prep Class - An Introduction to School & Social Skills

(90 minutes, Monday to Friday, 11am - 12:30pm, for children 20 - 30 months old)

We look forward to gently introducing you and your toddler to a classroom experience. In our program, you attend with your child and stay with them while guiding them to notice their Teacher's instructions and engage peacefully with their peers and classroom materials.

Teachers will coach You on how to activate your child's innate 'learning-by-mimicry' and support their first efforts at appropriate social behaviours. Together, we will share valuable school experiences, explore art materials and tools, learn about the world through simple crafts, and socialize with Teachers and peers. We will model effective and friendly communication techniques while participating in guided snack, lesson, and circle times. And, as we demonstrate our enthusiasm and participation, your child will watch and mimic our sense of curiosity and involvement.

When your child is comfortable in the classroom, your coaching conversations with the Teacher will broaden to include conflict resolution tips and confidence building techniques. When your child demonstrates readiness, we will begin to 'transfer trust and authority' from You to your Teacher when you leave the room for short practice absences (2-5 minutes).

In time, your child will feel confident enough to remain happily engaged without your constant support. When that day comes, we will be ready with our Junior Preschool Program, and you will be ready to step away for long enough to have tea with a friend, get your errands done, or just enjoy a little 'you' time!

Our Goals: To lay a strong social foundation based on kindness and trust while learning basic school social skills such as waiting, listening, asking the Teacher for help, taking pride in cleaning up, turn-taking, and more.

❖ **Tuition Fees** Parent & Child Class (1.5 hrs)

Days per week:	2 days	3 days	5 days
Fall Semester SEP 8 - DEC 19	\$788	\$1,185	\$1,665
Winter Semester JAN 5 - MAR 26	\$632	\$948	\$1,348
Spring Semester MAR 30 - JUN 26	\$692	\$1,038	\$1,466

MY WHOLE EARTH ACADEMY

2025/2026 School Year – Jr Preschool Programs

Junior Preschool - Independence Building Toward On-My-Own Participation

(2 hours, Monday to Friday, 9am - 11am, for children 2½ - 3 years old)

Our licensed Junior Preschool Program supports your child's emerging sense of autonomy and independence. We continue the gentle 'Transfer of Trust and Authority' from Parent to Teacher by allowing parents to remain seated at the side of the room or in our lobby, throughout class, as needed. Your child may come to you for reassurance and connection at any time, while also having the opportunity to practice 'on-my-own' participation and develop the confidence to 'go to school'. All while still enjoying the closeness and security that having you near provides them. When your child is ready, we will support You with gradual separation through increasingly longer absences.

English vocabulary and school concepts are explored with greater depth and higher order reasoning skills such as timekeeping, planning and problem solving are introduced. Opportunities abound to develop their confidence along with personal self-control and life skill independence. Guided classroom activities such as art & science exploration build on the foundational skills gained in Prep class. Early numeracy & literacy activities further enhance the learning environment.

Our Goals: To support the emerging autonomy of each child and begin healthy separation from their caregiver for most, if not all, classroom activities. To expand your child's vocabulary for receiving help, navigating social interactions, and sharing feelings kindly.

❖ Tuition Fees Jr Preschool (2 hours)

Days per week:	2 days	3 days	5 days
Fall Semester SEP 8 - DEC 19	\$910	\$1,365	\$1,892
Winter Semester JAN 5 – MAR 26	\$728	\$1,092	\$1,530

These prices include a \$4.75 per class reduction based on My Whole Earth Academy's participation in the Provincial Child Care Fee Reduction Initiative

MY WHOLE EARTH ACADEMY

2025/2026 School Year – Preschool Program

Multidisciplinary Preschool - Who am I? Where are we? What is school all about?

(3 hours, Monday to Friday, 9:00am - 12:00pm, for children 3 - 4 years old)

Let the questions begin! Our Multidisciplinary Preschool Program offers a unique curriculum that blends the pedagogies of Montessori, Reggio, Waldorf, and the BC Early Learning Framework. We encourage your child to use their natural learning style to complete daily activities while being inspired to become lifelong learners who are self-sufficient, confident members of society. Our bright and engaging classroom is arranged into thematic stations with quality materials for every curiosity and interest your child may have.

As your child's first independent school experience, we know that they may need some help getting over the emotional and social hurdles of being on their own. Using compassionate communication and inclusive language, Teachers support healthy methods of sharing feelings, asking for turns, setting boundaries, and managing natural frustrations. It is in these early years that a strong foundation of mindful living is carefully laid!

You've heard of STEM and STEAM? Our wholistic **STREAMING** academic curriculum ensures that all types of intelligences and interests are given an opportunity to learn and shine. Every week we offer experiences in **Science, Technology, Reading and Writing, Engineering, Art, Math, Music, Individual Work, Nature Studies, and Group Projects** to stimulate creativity, critical thinking, and problem solving. Monthly themes draw from the fields of Cultural Anthropology, Natural Sciences and Geography to further develop your child as a Global Citizen possessing a sustainable world view balanced with a scientific mind.

Due to emergent learning that happens in our classes, we strongly recommend enrolling for the highest number of days per week that your child can attend in good health. Challenging topics are made accessible by being presented as projects, both group and individual, that are completed over several days and build on the lessons from previous days. Repetition works!

Our Goals: To inspire your child to be curious, empathetic, mindful, and confident while out in the world and at school. To prepare your child for successful entry into Junior Kindergarten.

❖ Tuition Fees Preschool (3 hours)

Days per week:	3 days	4 days	5 days
Fall Semester SEP 8 - DEC 19	\$2,155	\$2,748	\$3,002
Winter Semester JAN 5 - MAR 26	\$1,725	\$2,198	\$2,428
Spring Semester MAR 30 - JUN 26	\$1,890	\$2,412	\$2,648

MY WHOLE EARTH ACADEMY

2025/2026 School Year – Jr Kindergarten Program

Multidisciplinary Junior Kindergarten – Everything I Need to Know for Kindergarten!

(3.5 hours, Monday to Friday, 1:00 -4:30 pm, for children 4 - 5 years old)

Time to Level Up! Our Multidisciplinary Junior Kindergarten Program offers a unique curriculum that blends the pedagogies of Montessori, Reggio, Waldorf, and the BC Early Learning Framework. We encourage your child to use their natural learning style to complete daily activities while being inspired to become lifelong learners who are self-sufficient, confident members of society. Our bright and engaging classroom is arranged into thematic stations with quality materials for every curiosity and interest your child may have.

This 'next level' Junior Preschool Program is designed to prepare your child fully for their admission into Kindergarten while gently supporting their ongoing socio-emotional and physical development. Building on what your child has already learned about life in Preschool, our Teachers will help them confidently ask and find answers to their questions about the world around them. With Life on Earth as our focus of inquiry, our emergent curriculum uses science experiments, Reggio-style nature projects, and the Montessori class materials to broaden your child's vocabulary, increase their mental acumen, and further their understanding of their lived experiences.

You've heard of STEM and STEAM? Our wholistic **STREAMING** academic curriculum ensures that all types of intelligences and interests are given an opportunity to learn and shine. Every week we offer experiences in **Science, Technology, Reading and Writing, Engineering, Art, Math, Music, Individual Work, Nature Studies, and Group Projects** to stimulate creativity, critical thinking, and problem solving. Monthly themes draw from the fields of Cultural Anthropology, Natural Sciences and Geography to further develop your child as a Global Citizen possessing a sustainable world view balanced with a scientific mind.

Due to the emergent and ongoing learning that happens in our classes, we strongly recommend enrolling for the highest number of days per week that your child can attend in good health. Challenging topics are made accessible by being presented as projects, both group and individual, that are completed over several days and build on the lessons from previous days. Repetition works!

Our Goals: To prepare your child socially, emotionally, mentally, and physically for the rigours of elementary school and life in general while nurturing their confidence and self-image as a kind member of society.

❖ Tuition Fees Jr Kindergarten (3.5 hours)

Days per week:	3 days	4 days	5 days
Fall Semester SEP 8 - DEC 19	\$2,520	\$3,253	\$3,558
Winter Semester JAN 5 - MAR 26	\$2,018	\$2,602	\$2,878
Spring Semester MAR 30 - JUN 26	\$2,185	\$2,856	\$3,136

MY WHOLE EARTH ACADEMY

2025/2026 School Year – HIL Program

Highly Interested Learners (HIL) Junior Kindergarten Program – Teach me EVERYTHING!

(3.5 hours, Monday to Friday, 1:00 -4:30 pm, for children 4 - 6 years old)

Calling All Lovers of Knowledge! Do you have a child with an unquenchable thirst for answers? A child who loves to learn? This is a special program just for them! Our HIL Junior Kindergarten Program offers an enriched version of our unique multidisciplinary curriculum to engage your child's innate love of learning while helping them develop into self-sufficient, confident members of society. Our bright and engaging classrooms are arranged into thematic stations with quality materials for every curiosity and interest and we go out on Field Trips, too!

Lesson plans are co-created with the students and themes are explored through challenging weekly projects. Students may team up into groups or work independently while applying and expanding the skills they are learning. An excellent precursor for IB programs or private schools, our HIL program provides opportunities for your child to develop their mind, heart, and skills to the fullest.

With Life on Earth as the focus of inquiry, our curriculum uses real science and technology experiments, Reggio-style nature projects, and Montessori class materials to broaden your child's vocabulary, increase their mental acumen, and further their understanding of their lived experiences. Themes draw from the fields of Cultural Anthropology, Natural Sciences, and Geography to further develop your child as a kind Global Citizen with a sustainable world view and a scientific mind.

Our HIL program gently supports your child's ongoing socio-emotional development as we guide them to confidently ask and find answers to their questions about the world around them and remember to include their peers in the discussion or project at hand. Field Trips to the Library, local nature settings, and fun Educational Centers are another great way that we promote their ability to make friends and learn how to be a member of the team while satisfying their urge to know more!

Due to the challenging nature of the lessons we undertake, we strongly recommend enrolling for the highest number of days per week that your child can attend in good health. Much of our learning is experiential and comes from projects that are completed over several days and build on the lessons from previous days. Repetition works!

Our Goals: To encourage and expand upon your child's strong interest in knowledge while nurturing their confidence and self-image as a kind member of society. *(Interview required for admission)*

Simply advise our Registrar that you would like your child to be included in HIL activities. Any child who demonstrates interest and ability will automatically be included in class.

MY WHOLE EARTH ACADEMY

2025/2026 School Year – Specialty Programs

Lunch Bunch - Songs, Stories & Snacks

(1 hour, Monday to Thursday, 12:00pm – 1:00pm, for children 3 - 5 years old)

Our fun Lunch Program supports your child's social skills through reading, writing, and storytelling, all while sharing our lunch!

Eating together is a time-honoured way of connecting and relaxing in the company of friends. For some friends, it means one less transition between their morning and afternoon activities, for some it means an extra hour with their friends. For everyone it means a fun time telling stories and singing songs from around the world.

Our Goals: To expand your child's vocabulary, emerging literacy skills, and capacity to express their inner thoughts and dreams.
